2024 ENERGY STAR® APPLIANCE REBATES

Learning how energy is used in your home is an important step toward cutting energy costs, improving your home's energy efficiency and protecting the environment. Visit ENERGY STAR @ Home (www.energystar.gov/home) and learn what you can do in your home to make energy-efficient improvements and get energy savings tips.

Look for the ENERGY STAR® when purchasing products for your home. When you choose an ENERGY STAR®, you get a product that protects our environment by meeting strict energy efficiency criteria set by the EPA and Department of Energy. These products offer performance and reliability, improve your home's energy efficiency, protect the environment and help cut energy costs.

NEW ENERGY STAR® REBATES:

- The appliance(s) must be purchased after January 1, 2023 and have the ENERGY STAR® rating.
- The rebate form, a copy of your invoice and the ENERGY STAR® label must be submitted by December 31, 2024.
- Qualifying ENERGY STAR® rated appliances include dehumidifiers, refrigerators, freezers, dishwashers, washing machines and room air conditioners.
- All the above listed guidelines must be met in order to receive a **\$25.00** rebate per appliance credit on your electric bill.

The following new electric ENERGY STAR® rated appliances have been installed. (Please check all that apply):

- Dehumidifier Freezer Washing Machine
 Refrigerator Dishwasher Room Air Conditioner
